

The Office of Health Sciences Education

Enhancing Teaching and Learning through Scholarship and Innovation

The Office of Health Sciences Education exists to provide leadership in scholarship and innovation in teaching and learning.

The goals are:

- To promote and enhance research and scholarship in teaching and learning.
- To assist in the development, dissemination, and evaluation of innovation in teaching and learning.
- To promote the value of teaching in Faculty of Health Sciences.

What the OHSE provides:

Health Sciences Education Rounds

Health Sciences Education Award
