Events in February!

499 Question and Answer Period
February 2 5-7pm
Douglas 515

Still have questions about 499 projects?
Your Academic and Admin Co-Chairs
will be hosting "499 Office Hours".

Come ask us anything and everything
you've ever wondered about 499s or 4th
year academics in general!

Volunteer as a Peer Mentor!

Come out to the information sessions
being held on Feb 9th (5:30-6:30) and
10th (3:30-4:30) to Seminar Room 121
in Stauffer to learn how you can make a
difference in the Queen's community!

Astroff: The Med School Interview

Dr. Astroff will be returning to Queen's
to give some tips and pointers for
continuing education interviews. Stay
tuned for more details.

MedApplications.com: Interview Prep Session

February 9th 5:30-7pm Etherington
Auditorium

Topics will include:

- Practice Questions and MMI Scenarios
- Intro to Healthcare
- Intro to Medical Ethics
- Top 10 Things to think about BEFORE your interview
- Interview Preparation- "Why it works!"

The Life Sciences Banquet

This past Saturday was the annual Life Sciences Banquet. It was one of the best that we've attended over our three years in the Life Sciences program. With record breaking ticket sales, the Renaissance Banquet Hall was packed with students and professors alike. We would like to extend a HUGE thank you to the social chairs, Will and Nikki, as well as their entire social committee for the many hours of hard work and effort that went into making the night such a huge success. If you are in second or third year and were unable to attend don't fret, there's always next year!

LifeSci Love,

Lisa Morrison and Kayla McConvey

Admin Office Hours!

What are these?

Come out and chat
with Kayla and Lisa
regarding courses,
LifeSci, or just life,
we're here for you!

February 8th

9:30 – 10:30am
Douglas 514

Pick Up Lines

We figured that instead of a monthly riddle, some pick up lines would be more appropriate to the season. Try these out on that LifeSci hottie that you've had your eye on!

- ♥ You're like an exothermic reaction, you spread your hotness everywhere!
- ♥ If I was an enzyme, I'd be helicase so I could unzip your genes
- ♥ If I was an endoplasmic reticulum, how would you want me: smooth or rough?
- ♥ I wish I were adenine because then I could get paired with U
