Vision: To create the next generation of simulation.
To support educators and researchers who evaluate and incorporate emerging technologies that equip future students for a changing world.
We value

Passion and engagement.

Breaking down silos and tapping into the richness that comes from diversity.

Diversity of expertise, shared values, and goals.

Conducting rigorous critical evaluation of ideas while supporting and respecting every individual.

CENTRE FOR AUGMENTED HUMAN PERFORMANCE
Experiment **boldly**.

Evaluate **rigorously**.

Be **nimble** in approach, stay focused on the **goal**.

Search for **emerging technology**, **anticipate** future developments.

Search for potential **partners**, pursue new **opportunities**.
