

MD Program

Academic Accommodation Policy

Student Assessment Component: Policy #SA-08v2

Supersedes: Policy #SA-08v1

Lead Writer: Dr. Renee Fitzpatrick, Dr. Cherie Jones

Approved by MD-PEC: January 25, 2023

Approved by SOMAC: February 13, 2023

Revision: January 25, 2023 (v2)

Effective Date: January 23, 2023

1.0 Guiding Principles

- 1.1 The Queen's MD program welcomes students and applicants who require accommodations and is committed to supporting students with disabilities and to reducing academic barriers as they pursue their academic goals.
- 1.2 In order to graduate, students of the MD Program must demonstrate the necessary knowledge and skills that are required to meet the objectives of the MD Program. All students in the program must meet the requirements of the curriculum and the Queen's MD Program's Technical Standards for the Admission, Retention, and Graduation of MD Students (Technical Standards). These standards are set out in the Council of Ontario Faculties of Medicine (COFM) policy document: *Essential Skills and Abilities required for the Study of Medicine (Approved October 2016)*¹

2.0 Applicants to the MD Program

- 2.1 The MD Program will fairly and equitably consider each candidate's strengths and admission qualifications irrespective of the need for accommodation.
- 2.2 Potential applicants to the MD Program will be notified of the Technical Standards in advance of application.
- 2.3 Applicants who require accommodation to participate in the admissions assessment process will be advised that they must contact QSAS (Queen's Student Accessibility Services) regarding a request for accommodation during the admissions process.
- 2.4 Applicants who indicate a need for accommodation will be provided with a copy of this policy and the procedural requirements for accommodation during the admissions process.

3.0 Current Students in the MD Program

3.1 Long-term or Ongoing Academic Accommodation

- 3.1.1 Students who require long-term or ongoing academic accommodation in order to pursue the Technical Standards, sit examinations or assessments, or pursue the objectives of the MD Program curriculum are required to register with QSAS.
- 3.1.2 QSAS, a unit within Queen's Student Wellness Services, supports students with disabilities through the development of accommodation plans to remove barriers and to ensure equitable opportunity to pursue their academic and professional goals.
- 3.1.3 All students registering with QSAS must submit documentation with respect to disabilities as outlined here: <https://www.queensu.ca/studentwellness/accessibility-services/documentation-requirements-forms#documentation-requirements>.
- 3.1.4 Accommodation plans are developed in consultation with representatives from the MD program to ensure they meet the needs of the student and objectives and Technical Standards of the MD Program. Accommodation plans requiring significant deviation in assessment or program delivery will be reviewed by Assistant Deans Academic Affairs, Student Affairs and Curriculum in consultation with QSAS and the Associate Dean MD Program in order to best meet the needs of the student while meeting the goals and objectives of the MD program.
- 3.1.5 Any disability related documentation provided to QSAS to facilitate generation of the accommodation plan is reviewed solely by QSAS advisors, retained on site in the QSAS office and is not shared with the MD program.
- 3.1.6 Information about QSAS documentation requirements and available supports can be found here: <http://www.queensu.ca/hcnds/ds/>

3.2 Short-term or Emergency Accommodation

- 3.2.1 Students who require accommodation on an emergency basis due to short-term disability or need may request accommodation through the Learner Wellness Centre. The accommodation plan is determined on an individual basis and operationalized once approved by the Assistant Dean Academic Affairs, in consultation with curricular leads. Students who are granted short-term accommodation may be required to make up any missed assessments, examinations or other elements of the curriculum.

4.0 Confidentiality

- 4.1 All accommodation plans are kept confidential and available only on a *need to know basis* within the MD Program in order to facilitate operationalization of the plan
